

Capital Improvement Project Plan

PK 17-11

Project Number:
PK 17-11

Project Name:
Dog Park at River Park South Renovations

Department Responsible:
Parks & Recreation / Ken Reed
Parks & Recreation / Zach Jones

Contact Number:
209-941-7363
209-941-7385

Project Description:

The proposed renovations would include: Removal of turf at dog park entry. Installation of a decomposed granite (DG) entry, DG walkway, and DG pads by existing park benches as necessary. Movement and realignment of irrigation as needed. Addition of top dressing, leveling, and over seeding of an estimated 8000 square feet of turf. This renovation would require a scheduled closure of the park in sections allowing other sections to be available for use.

Justification:

Since the opening of the Lathrop Dog Park at River Park South in the spring of 2012, the park has been, and continues to be, one of the most utilized facilities within the City. Upon recent inspection, it was determined that the turf is failing in areas of the dog park.
