Project Name:

Sustainable Groundwater Management Act Compliance

Department Responsible:

Public Works / Greg Gibson

Contact Number:

209-941-7430

Project Description:

The Sustainable Groundwater Management Act was signed into law in 2014 to provide a framework for sustainable, local groundwater management in California. The legislation requires local water agencies to form a Groundwater Sustainability Agency and to develop Groundwater Sustainability Plans that are submitted to the State and reviewed for adequacy. Because the City is located in a basin designated by the State as a high priority because it is in critical overdraft, the City has to follow an accelerated schedule to achieve compliance with the legislation. The City must join a Groundwater Sustainability Agency by 2017 and have a Groundwater Sustainability Plan adopted and implementation underway by 2020.

Justification:

The Sustainable Groundwater Management Act was enacted by the State to empower local agencies to achieve sustainable groundwater management. If the City does not adequately achieve compliance within the required schedule, intervention by the State may occur.

The Sustainable Groundwater Management Act
