Creating Active Recreation Experiences

Investing in Lathrop's Parks, making Lathrop a better place to live, work and play!

The City of Lathrop is proud to continue investing and reinvesting in the parks and recreational spaces that bring our community together. From new parks to exciting renovations, these improvements reflect the City's commitment to creating vibrant, welcoming spaces for our residents to enjoy.

Recent and ongoing investments include the development of Queirolo Park, Academy Park, and Lathrop Landing Community Park, providing new opportunities for recreation, play, gathering, and community connection.

In addition, the City is also reinvesting in existing neighborhood parks, with renovations at Mossdale Landing Community Park and Manuel Valverde Park.

SB 1383

SMALL ACTIONS, BIG IMPACT.

SB 1383 Short-Lived Climate Pollutant Reduction Strategy

THE IMPACT SO FAR*

2.1 MILLION
TONS OF METHANE
REDUCED

That's the equivalent of
taking more than
450,000 cars
off the road for a year!

6.6 MILLION
TONS OF ORGANIC WASTE
KEPT OUT OF LANDFILLS

Reducing pollution and
creating clean air
for our communities.

1 MILLION+
CUBIC YARDS OF
COMPOST PRODUCED

Nutrient-rich compost
that builds healthy soil
and supports local farms,
gardens, and green spaces.

18 MILLION+
CALIFORNIANS
BENEFITING

Cleaner air, healthier
communities, and a
stronger, more resilient
California for all.

*Data reflects progress through 2023.

HOW SB 1383 WORKS

WE SORT

Keep food scraps and
yard waste out of
the trash.

WE COLLECT

Organics are collected
separately and taken
to composting
facilities.

**LESS WASTE.
LESS POLLUTION.
BETTER FUTURE.**

WE GROW

Compost improves
soil health, helps
grow food, and
fights climate
change!

WE COMPOST

Organics are turned
into nutrient-rich
compost instead of
creating methane
in landfills.

WHY IT MATTERS

Methane is 84x more powerful
than CO₂ at trapping heat in the
atmosphere. Capturing organics
stops methane before it forms.

Cleaner air means healthier
families, fewer asthma attacks,
and lower health care costs.

Compost enriches soil,
conserves water, and supports
climate-resilient landscapes.

Stronger communities today
lead to a more sustainable
tomorrow.

SORT IT.

COLLECT IT.

COMPOST IT.
